

Wasana Muthumali Perera

UI/UX Designer

SUMMARY

Gained hands-on experience designing user-friendly web and mobile interfaces using Figma. Collaborated with teams to create wireframes, prototypes, and high-fidelity layouts while enhancing skills in design thinking and user experience.

SKILLS

- User Research
- Visual Design
- Interaction Design
- Prototyping (Figma)
- Design Thinking
- Cross-functional Collaboration

EXPERIENCE

Intern UI/UX Designer

06/2024-06/2025 Location: Remote Wise Soft Lab

As a UI/UX Design Intern, I contributed to creating modern, user-friendly interfaces for multiple web and mobile projects. I collaborated with the design and development teams to transform requirements into functional designs, focusing on usability, consistency, and aesthetics. My responsibilities included creating wireframes, prototypes, and high-fidelity layouts in Figma, following design principles and client feedback. This experience strengthened my skills in design thinking, communication, and understanding real-world project workflows.

Associate UI/UX Designer

06/2025-09/2025 Location: Remote Wise Soft Lab

PROJECTS

I have contributed over 15+ real world projects while communicating with clients directly, identifying their needs and perspectives to bring the design they have in their minds.
